Anshu Sharma

Node Js | Laravel Framework | React Js

✉ anshusharma1298@gmail.com   📞 7007976332   in LinkedIn   ⚙ Github   🔗 My Portfolio   📍 Lucknow

🪪 PROFILE

Experienced and certified **Backend Developer** with **3.11+ years** of hands-on development using **Node.js, Laravel**, and **React.js**. Adept in creating scalable APIs, real-time applications, and clean front-end experiences. Passionate about clean code, performance optimization. Strong experience integrating third-party APIs, managing authentication systems, and working on cross-platform solutions.

💼 PROFESSIONAL EXPERIENCE

Eighteen Pixels India Pvt. Ltd
Node Js | Laravel Framework | React Js

09/2023 – present
Lucknow, India

Augurs Technologies Pvt Ltd
Laravel Developer

06/2021 – 07/2023
Lucknow, India

🧠 SKILLS

Backend
Node.js (Express.js, REST APIs), Laravel Framework (Eloquent ORM), Microservices Architecture

Frontend
React.js (Hooks, Context API), JavaScript, HTML5, CSS3, Bootstrap, jQuery.

Database
MySQL, MongoDB, Firebase, PostgreSQL (Realtime Notification), ORM (Sequelize ORM, Mongoose ORM &Eloquent ORM).

DevOps & Tools
Git, GitHub Actions, Postman.

Cloud & Deployment
AWS Certified Developer - Associate.

🌿 SOFT SKILLS

Client Engagement
Experienced in interacting with both international and domestic clients to understand requirements, provide updates, and deliver effective solutions.

Collaboration & Teamwork
Successfully worked alongside frontend developers, UI/UX designers, QA testers, and project managers in cross-functional teams.

Problem Solving
Strong ability to analyze bugs, identify root causes, and implement efficient, scalable solutions under tight deadlines.

Technical Presentations
Conducted project demos, internal technical sessions, and walkthroughs of code and system architecture for stakeholders and team members.

🎓 EDUCATION

Master of Computer Applications
Shri Ramswaroop Memorial University

01/2018 – 01/2020
Barabanki, India

Bachelor of Computer Applications
Integral University

07/2015 – 07/2018
Lucknow, India

12th (Intermediate)
R P T Inter College

07/2014 – 07/2015
Lucknow, India

High School
S H S School

07/2012 – 07/2013
Lucknow, India

🏅 AWARDS

Software Super Hero
Eighteen Pixels India Pvt. Ltd.

13/09/2024

Certificate of Code Wizard Competition (First Position)
Eighteen Pixels India Pvt. Ltd.

17/05/2024

Most Improved Employee of the Year
Augurs Technologies Pvt Ltd.

07/06/2023

📁 PROJECTS

SaaS-Based HRMS
  Tech: React.js, Node.js, Express.js, MySQL (Sequelize ORM)
  • Designed and developed a multi-tenant SaaS HRMS platform to manage employees across organizations.
  • Implemented REST APIs with Express.js and Sequelize ORM for efficient database interactions.
  • Optimized MySQL queries with Sequelize ORM to handle large datasets and ensure scalability.

Work Tracking (Employee)
  Tech: React.js, Node.js, Express.js, MongoDB, Firebase
  • Designed and developed a cross-platform employee tracking system with real-time updates for web and mobile.
  • Implemented secure authentication, attendance logging, and task tracking using REST APIs.
  • Integrated Firebase Cloud Messaging for instant notifications to employees and managers.
  • Delivered role-based dashboards (Admin, Manager, Employee) for better monitoring and productivity analysis.

Employee Management System
  Tech: React.js, Node.js, Express.js, REST APIs, MongoDB
  • Built a centralized employee management solution with CRUD operations on employee data.
  • Implemented REST APIs with Express.js for scalability and modularity.
  • Developed an intuitive React.js frontend for HR/Admins to manage employees efficiently.
  • Applied secure authentication and authorization (JWT-based) to safeguard sensitive employee records.
  • Enhanced reporting features to generate insights on employee performance and attendance.

3rd Party API , Whatsapp API, Facebook API
  WhatsApp API, Facebook Graph API, Stock Market API (polygon.io ⧉)
  • Integrated WhatsApp API for automated notifications and double tick message confirmations.
  • Worked with Facebook Graph Explorer API to extract and process marketing leads.
  • Implemented stock market data retrieval (Polygon.io ⧉) for real-time trading insights.
  • Combined Node.js and Laravel services to ensure smooth data synchronization across APIs.
  • Improved business workflows by automating third-party data ingestion and notifications.

Auction-Based Application
  Tech: HTML, CSS, Bootstrap, Laravel, MySQL
  • Developed a dynamic online auction platform for real-time bidding.

- Designed responsive UI with Bootstrap for seamless user experience.
- Implemented secure bidding logic and validation using Laravel.
- Used MySQL to manage auctions, users, and transaction histories.
- Built an admin panel to monitor auctions, users, and settlement processes.

CMS, CRM, and Government Projects

Tech: HTML, CSS, JavaScript, Bootstrap, Laravel, MySQL
- Built scalable CMS and CRM solutions for government and enterprise clients.
- Implemented secure authentication and role-based access for multiple user levels.
- Designed dashboards and reporting modules for real-time data insights.
- Ensured compliance with government data security and privacy standards.
- Delivered user-friendly UI with Bootstrap and JavaScript for smooth interactions.

Traveller Agency Based CRM

Tech: HTML, CSS, Bootstrap, Laravel, MySQL
- Developed a CRM tailored for travel agencies to manage bookings and customers.
- Implemented modules for itinerary planning, booking confirmations, and customer management.
- Designed responsive dashboards for agents and admins using Bootstrap.
- Integrated MySQL for storing travel packages, customer data, and payment records.
- Automated report generation for sales, leads, and revenue tracking.

Event Management System

Tech: HTML, CSS, JavaScript, Laravel, Socket.io ⧉ (Node.js), Amazon Chime, WebSockets
- Built a full-featured event management platform with ticketing and scheduling.
- Integrated real-time chat and video conferencing using Amazon Chime & WebSockets.
- Used Socket.io ⧉ for instant updates on event sessions and participant interactions.
- Designed an admin panel for event creation, attendee management, and analytics.
Improved user engagement with interactive features like live polls and Q&A.

Job Based Application (Mobile)

Tech: REST API, Node.js, Express.js, MongoDB
- Developed REST APIs for a mobile-first job portal connecting employers and candidates.
- Implemented job posting, search, and application workflows.
- Used MongoDB to handle large-scale user and job listing data.
- Designed employer and candidate dashboards with personalized recommendations.
- Ensured mobile performance optimization with efficient API responses.

Payment Gateway

PayPal, Stripe, Razorpay (Webhooks)
- Integrated multiple payment gateways for flexibility in transactions.
- Implemented webhook handling for real-time payment confirmations and refunds.
